Design Features

· Turn ON/OFF and dim remotely from a Z-Wave controller

· Remotely monitor with any mobile device*

· Can be included in multiple groups and scenes

· One Z-Wave controlled polarized outlet for dimmable LED, CFL and incandescent lights

· One grounded always-on outlet

· Manual ON/OFF and brightness control with the top-mounted push button

· Space-saving design

· Does not block the bottom outlet when plugged into the top outlet of a duplex receptacle with the ground pin down

· Cords for connected devices route to the sides allowing close placement of furniture

· Uses Z-Wave firmware update metadata command class for standardized over-the-air updates

· Z-Wave Plus certified

· Two-tone finish

· Trilingual instruction manual – English, French and Spanish

Z-Wave Plus Features

· Works with Z-Wave Classic and Z-Wave Plus devices

· Up to 50% greater wireless range**

· 250% faster processor**

· 400% more memory**

· 50% more energy efficient**

· Supports wireless upgrades to future-proof your home

2.8″

1.5″

3.7″

*Requires Z-Wave hub or controller – functions vary by brand

**Compared to previous Z-Wave generations

Manual ON/OFF/Dim & program button

Polarized wirelessly controlled outlet

Grounded outlet

Leaves 2nd outlet free for use

Save Energy, Save Money

Full-Range Dimmability

Two-Outlet Smart Dimmer
One wirelessly controlled dimmable outlet and one grounded always-on outlet

Brightness Adjustments
Dimming lights cuts energy cost and extends bulb life — dims 0-100% in 1% increments

Device Configuration

Adding your device to a Z-Wave network
Once the hub is ready to add your device, press and release the top button on the smart dimmer.

To remove and reset the device
Once the controller is ready to remove your device, press and release the top button on the smart dimmer to remove it.

To return to factory defaults
While plugging in the smart dimmer, press the top button for at least three seconds.
