

JascoPro™ Series Wi-Fi In-wall Toggle Smart Switch

QUICKFIT™
SIMPLEWIRE™

Specifications

Power: 120VAC, 60Hz **Signal Frequency:** 2.4GHz

Maximum Load: 960W Incandescent, 1/2 HP Motor 1800W (15A Resistive)

Range: Up to 100 feet from router

Operating Temperature: 32-104° F (0-40° C)

Warranty: 5-year limited product warranty

Requires neutral wire. Switch must be mounted indoors

Design Features

- QuickFit™ – Improved components and reduce the housing depth by up to 20 percent compared to previous Wi-Fi models and eliminated the need for heat tabs
- SimpleWire™ – Auto line-load sensing terminals support fast installation by detecting line and load wires and configuring the switch accordingly. Dual ground ports, which are offset to avoid switch box mounting screws, support daisy-chaining in multi-switch setups
- Turn the connected device On/Off manually or with the JascoPro™ Series App
- May be used in single pole installation or with up to four Jasco model 46560 Add-on switches in 3 or 4-way connections, or can be connected with the existing 3-way switch.
- Works with all LED, CFL, halogen and incandescent bulbs
- Blue LED indicates automatic or manual paring mode status. Also indicates switch location in a dark room (with 4 adjustable settings)
- Can be included in multiple Groups, Scenes and automation
- Double-tap and triple-tap scene activation directly from device
- Screw Terminal installation; requires wiring connections for Line (Hot), Load, Neutral, and Ground. Traveler wire required for multi pole installation
- Uses a standard decora wall plate (wall plate not included)
- LED status can be inverted manually changed to invert, always OFF and always ON
- Inline traveler circuit protection

Installation Recommendations:

- Insert wire into port and tighten screw. Do not wrap wire around screw
- Indoor use only
- Wallplates sold separately
- Trilingual Instruction manual – (English, French, Spanish)
